

Sequencing Seminar Series

Demystifying Next Generation Sequencing Sequencing Simplified

Sequencing is transforming scientific discovery with combinations of key applications, enabling a deeper understanding of genome structure and function. Sequencing - by itself - is simply no longer enough. With the introduction of the Genome AnalyzerIIe and HiSeq™ 2000, Illumina provides an extensive portfolio of sequencing instruments designed to meet a wide range of applications and users' requirements. The industries most streamlined and intuitive single operator workflow just got easier. Preconfigured plug and play reagents and fully supported bioinformatics have made next generation sequencing accessible, simple and affordable.

Register for this seminar series which will provide a step-by-step guide to next-generation sequencing and learn about the Illumina 10G Grant Program for Malaysia by emailing Ms Wai Shan Ng on waihsan@sciencevision.com.my or registering at www.illumina.com/seminars

MONDAY, MAY 31st, 2010

Hotel Equatorial Bangi
Putrajaya Persiaran Bandar
43650 Bangi
Malaysia

SEMINAR SCHEDULE		
9:30	Registration	
10:00	Introduction – Illumina 10G Grant Program	Ram Laxman, Regional Sales Manager, Illumina Singapore
10:05	Sample preparation considerations and workflow	Graeme Bethel, Sequencing Specialist, Illumina Australia
10:35	A Sequencer for Everyone - which instrument to sequence on and why	Ram Laxman, Regional Sales Manager, Illumina Singapore
11:00	MORNING TEA	
11:15	Data Analysis Considerations	Siddharth Singh, Bioinformatics Scientist, Illumina Singapore
11:45	Transcriptomic Applications with Illumina Sequencing	Shawn Baker, Product Manager, Illumina USA
12:15	When The Rubber Meets The Road	'Keng See Chow, PhD Biotechnology Unit Rubber Research Institute of Malaysia Experiment Station
12:45	Conclusion	Ram Laxman, Regional Sales Manager, Illumina Singapore
1:00	BUFFET LUNCH	

All Attendees Will Be In The Lucky Draw For An iPod Touch
