

## Sequencing Seminar Series

# Demystifying Next Generation Sequencing

## Sequencing Simplified

Sequencing is transforming scientific discovery with combinations of key applications, enabling a deeper understanding of genome structure and function. Sequencing - by itself - is simply no longer enough. With the introduction of the Genome AnalyzerIIe and HiSeq™ 2000, Illumina provides an extensive portfolio of sequencing instruments designed to meet a wide range of applications and users' requirements. The industries most streamlined and intuitive single operator workflow just got easier. Preconfigured plug and play reagents and fully supported bioinformatics have made next generation sequencing accessible, simple and affordable.

Join us for this seminar series which will provide a step-by-step guide to next-generation sequencing by emailing [dewi.pandu@gmail.com](mailto:dewi.pandu@gmail.com) or registering at [www.illumina.com/seminars](http://www.illumina.com/seminars)

TUESDAY, JUNE 1<sup>st</sup>, 2010

THE CROWNE PLAZA HOTEL  
JL GATOT SUBROTO KAV 2-3  
JAKARTA 12930  
INDONESIA

| SEMINAR SCHEDULE |  |   |
|------------------|--|---|
| 9:30             | Registration   |   |
| 10:00            | Introduction   | Ram Laxman, Regional Sales Manager, Illumina Singapore        |
| 10:05            | Sample preparation considerations and workflow                     | Graeme Bethel, Sequencing Specialist, Illumina Australia      |
| 10:35            | A Sequencer for Everyone - which instrument to sequence on and why | Ram Laxman, Regional Sales Manager, Illumina Singapore        |
| 11:00            | MORNING TEA  |   |
| 11:30            | Data Analysis Considerations                                       | Siddharth Singh, Bioinformatics Scientist, Illumina Singapore |
| 12:00            | Transcriptomic Applications with Illumina Sequencing               | Shawn Baker, Product Manager, Illumina USA                    |
| 12:30            | Conclusion   |   |
