

Sequencing Seminar Series

Demystifying Next Generation Sequencing A New Trajectory for Sequencing

Sequencing is transforming scientific discovery with combinations of key applications, enabling a deeper understanding of genome structure and function. Sequencing - by itself - is simply no longer enough. With the introduction of the Genome AnalyzerIIe and HiSeq™ 2000, Illumina provides an extensive portfolio of sequencing instruments designed to meet a wide range of applications and users' requirements. The industries most streamlined and intuitive single operator workflow just got easier. Preconfigured plug and play reagents and fully supported bioinformatics have made next generation sequencing accessible, simple and affordable.

Join us for this seminar series which will provide a step-by-step guide to next-generation sequencing.

THURSDAY, MAY 20, 2010

NATIONAL WINE CENTRE
BROUGHTON & FERGUSON ROOMS
GROUND FLOOR
ADELAIDE

| SEMINAR SCHEDULE | | |
|------------------|--|--|
| 9:00 | Registration | |
| 9:10 | Introduction | Michael Sandery, Illumina Australia |
| 9:15 | Sample preparation considerations and workflow | Arjuna Kumarasuriyar, Illumina South Asia Pacific, Australia |
| 9:45 | A Sequencer for Everyone - which instrument to sequence on and why | Rob Tarbox, Illumina Hayward, USA |
| 10:15 | MORNING TEA | |
| 10:45 | Data Analysis Considerations | Vladimir Simonovic, Illumina Australia |
| 11:15 | Transcriptomic Applications with Illumina Sequencing | Arjuna Kumarasuriyar, Illumina South Asia Pacific, Australia |
| 11:45 | Conclusion | |
