

# IlluminaDx™ Seminar Series

## The Next Generation of Molecular Diagnostic Tests, Systems, and Services

Powered by the innovation that made us a leader in Life Sciences, IlluminaDx is dedicated to developing the next generation of molecular tests, systems and services that enable earlier diagnosis, selection of appropriate therapies and monitoring of disease progression. Our vision is to become a leader in translational medicine, focusing on complex diseases that benefit from high performance analysis, including genotyping, copy number, gene expression, methylation, and protein analysis.

In this seminar series, you will have the opportunity to learn how IlluminaDx is leveraging the strength of our technologies in four major areas:

- Molecular Diagnostics
- Molecular Cytogenetics
- Cancer Biomarker Discovery
- Clinical Laboratory Services

TUESDAY, SEPTEMBER 21, 2010

Hilton on The Park  
192 Wellington Parade  
East Melbourne  
Stradbroke Room

### SEMINAR SCHEDULE

10:00	Registration – Morning Tea and Coffee on Arrival	
10:30	Introduction	Vanessa Tyrrell, Illumina Asia Pacific
10:45	The BeadXpress System: An Array of Applications for the Molecular Lab	Gianluca Roma, Illumina
11:00	Talk title to be confirmed	Dr. Howard Slater, Royal Childrens Hospital Victoria, Melbourne
11:30	Talk title to be confirmed	Damien Bruno, Ph.D., Royal Childrens Hospital Victoria, Melbourne
12:00	Identifying Chromosomal Abnormalities Using Infinium SNP BeadChips	Harper VanSteenhouse, Ph.D., Illumina
12:15	LUNCH	
1:15	Clinical Genome Sequencing Service	Gianluca Roma, Illumina
1:45	Talk title to be confirmed	Dr. Richard Tothill, Peter MacCallum Cancer Institute, Melbourne
2:30	A Platform Approach to Translational Cancer Discovery and Diagnostic Development	Emily Winn-Deen, Ph.D., Illumina
2:45	Conclusion
