

illuminaDx™ Seminar Series

The Next Generation of Molecular Diagnostic Tests, Systems, and Services

Powered by the innovation that made us a leader in Life Sciences, IlluminaDx is dedicated to developing the next generation of molecular tests, systems and services that enable earlier diagnosis, selection of appropriate therapies and monitoring of disease progression. Our vision is to become a leader in translational medicine, focusing on complex diseases that benefit from high performance analysis, including genotyping, copy number, gene expression, methylation, and protein analysis.

In this seminar series, you will have the opportunity to learn how IlluminaDx is leveraging the strength of our technologies in four major areas:

- Molecular Diagnostics
- Molecular Cytogenetics
- Cancer Biomarker Discovery
- Clinical Laboratory Services

THURSDAY, SEPTEMBER 23, 2010

TRADERS HOTEL
1A CUSCADEN RD
SINGAPORE
THE GALLERY, LEVEL 2

SEMINAR SCHEDULE

10:00	Registration – Arrival Morning Tea and Coffee	
10:30	Introduction	Vanessa Tyrrell, Illumina Asia Pacific
10:45	The BeadXpress System: An Array of Applications for the Molecular Lab	Gianluca Roma, Illumina
11:00	Talk title to be confirmed	TBA
11:30	Identifying Chromosomal Abnormalities Using Infinium SNP BeadChips	Harper VanSteenhouse, Ph.D., Illumina
11:45	Talk title to be confirmed	TBA
12:30	LUNCH	
1:30	Clinical Genome Sequencing Service	Gianluca Roma, Illumina
2:00	Talk title to be confirmed	Dr. Richie Soong, Cancer Science Institute of Singapore, Singapore
2:30	A Platform Approach to Translational Cancer Discovery and Diagnostic Development	Emily Winn-Deen, Ph.D., Illumina
2:45	Conclusion – Afternoon Tea and Coffee
