

Illumina Financial Services

Interested in NGS technology but concerned about the expense? Illumina offers fast, easy, and affordable financing and leasing programs. By partnering with DLL and NFS Leasing, we are able to offer options that can fit all of our customers' needs, so you can preserve valuable lines of credit or overcome capital budget constraints while still keeping pace with advancing technology.

Illumina Capital – A DLL program

DLL is a global financial solutions partner that can help customers just entering the genomics industry or scaling up an existing operation.

- Capital leases
- Structured financing
- Same-as-cash programs

NFS Leasing

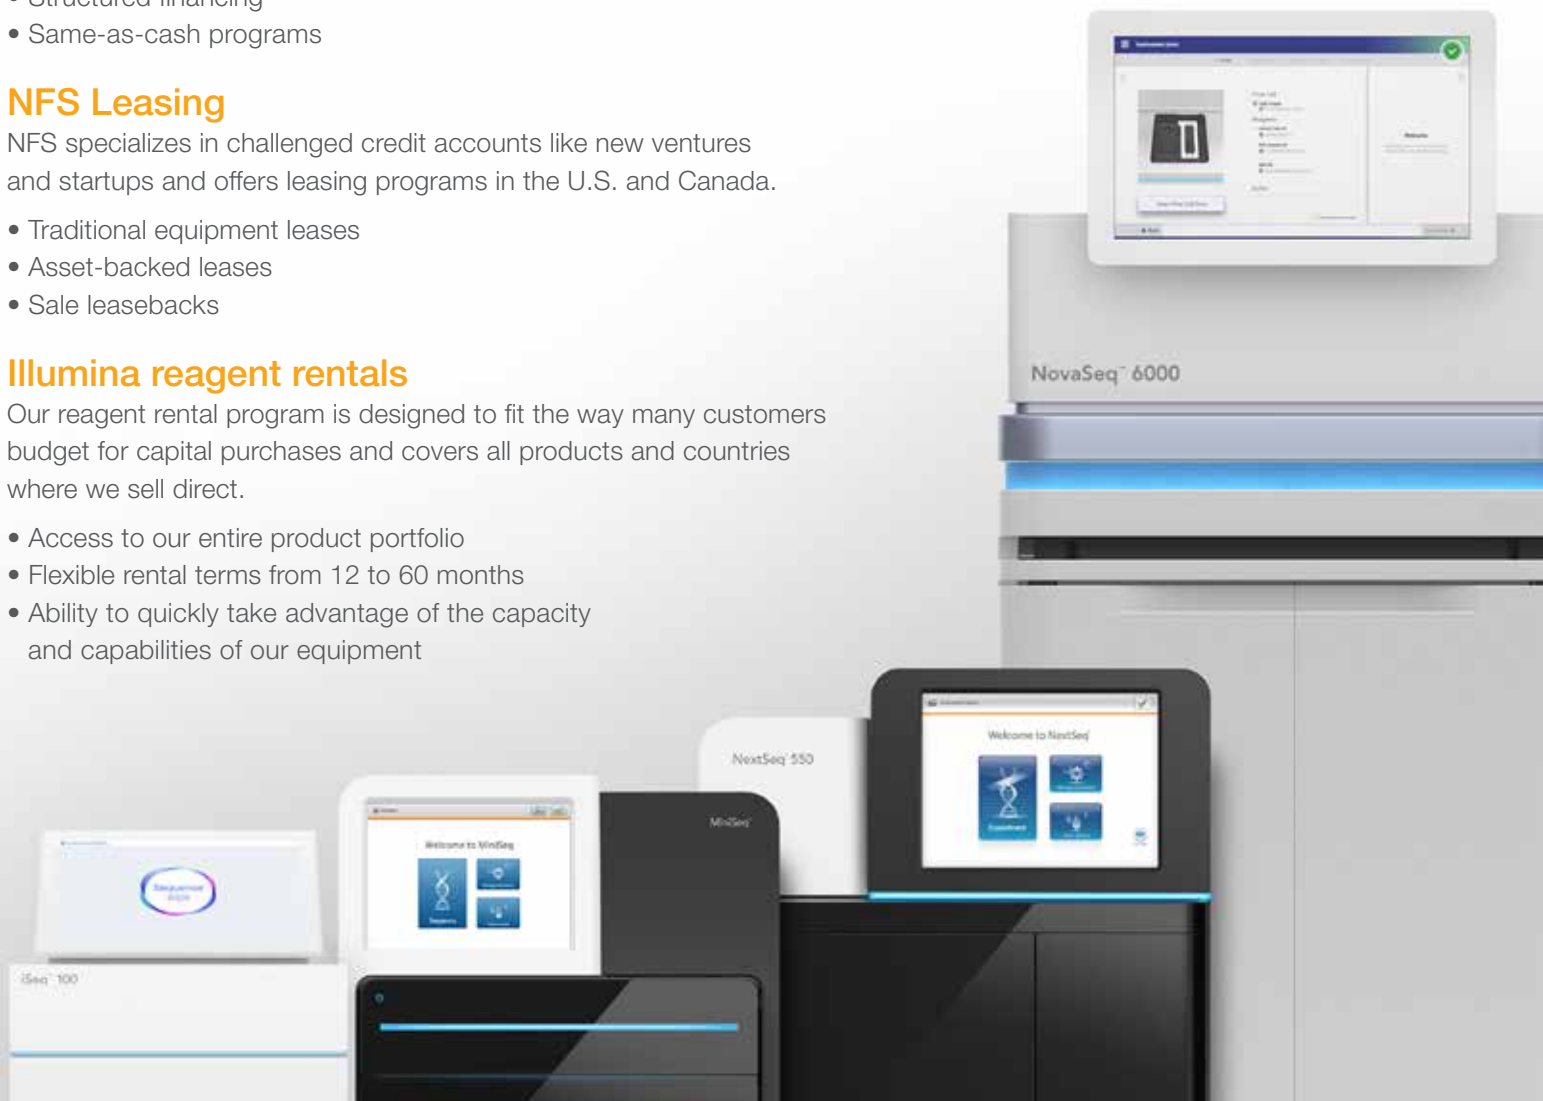

NFS specializes in challenged credit accounts like new ventures and startups and offers leasing programs in the U.S. and Canada.

- Traditional equipment leases
- Asset-backed leases
- Sale leasebacks

Illumina reagent rentals

Our reagent rental program is designed to fit the way many customers budget for capital purchases and covers all products and countries where we sell direct.

- Access to our entire product portfolio
- Flexible rental terms from 12 to 60 months
- Ability to quickly take advantage of the capacity and capabilities of our equipment

To explore your financial options, **call or email your Illumina Sales Representative.**
